

Press release

## The two largest Air-cooled Condensers in Iraq provided by ENEXIO

*ENEXIO wet cooling towers for Besmaya Phase I*

- Total output of 3.000 MWel
- 25 km south-east of the Baghdad city

*Herne, Germany/ Amman, Jordan – October 19, 2017 – ENEXIO Germany GmbH has received an order for two Air-cooled Condenser systems from the largest independent power producer (IPP), Mass Group Holding, in the Middle East region.*

At the gates of Baghdad (*about 25 km southeast from the Iraqi capital*), the new gas-fired plant "Besmaya" will be built and help to meet the growing demand for energy. Besmaya marks a unique agreement between Mass Group Holding as an IPP and the Ministry of Electricity of Iraq to strengthen the power generation infrastructure of the country.

„After we have already supplied the wet cooling towers for Phase I., we are once again given the opportunity to make an important contribution to the energy supply of Iraq and are very grateful to Mass Group Holding for the trust they have placed in us.“, said Mr. Jörg Torkar - Director Sales.
