

## OUR NEW BRAND FOR YOUR POWER COOLING BUSINESS

## YOUR RELIABLE PARTNER IN POWER COOLING SYSTEMS

ENEXIO is a reflection of what we do and what we have accomplished together with our customers as a **pioneer in the field of power cooling** over decades. It represents a promise to our customers and all business partners at the same time – we as a global power cooling solutions and service provider stand for **Energy. Engineering. Excellence.**

With our experience and pioneering spirit in engineering, manufacturing and service we deliver state of the art solutions for power plants, water and wastewater applica-

tions – always affected by our deep sense of responsibility for the overall management of resources and a clean environment. We deliver excellence and achieve customer satisfaction everywhere in the world. Our worldwide employees work with a continual commitment to **high quality, ecology and cost effective products and services.**

Our commitment to Energy, Engineering and Excellence means for you that we are a **reliable partner** who is always there to meet your expectations with superior results.

AIR COOLED CONDENSERS

HELLER TECHNOLOGY

WET COOLING TOWERS

2H COMPONENTS & SOLUTIONS

## DECADES OF LEADERSHIP

More than 80 years in the market and a great deal of success have made us a leading provider worldwide in developing and manufacturing both wet and dry cooling systems. We have a long history delivering beneficial industry-first technology: We developed the first **Air Cooled Condenser** in 1935, we are the inventor of the **Heller technology** in 1940 and our first **natural draft wet cooling tower** was erected in 1965. Since 1974 we serve the water and wastewater industry with **2H components and solutions** and revolutionized the waste management in coal-fired stations with our patented **Circumix technology** in 1990.

**Experience ENEXIO!**

## WE ARE AT YOUR SIDE

ENEXIO is present all over the world and **close by your side** at the same time.

## WE HAVE THE RIGHT SOLUTION FOR YOU

Depending on customer requirements we can provide any type of cooling solution for power generation efficiency while assuring cooling water economy. Our rich product portfolio ranges from all dry **air cooled condenser (ACC)** and **Heller technologies** to all **wet cooling towers**, as well as dry/wet combinations with evaporative add-ons.

In addition to our core power cooling solutions we also offer **cooling tower and water and wastewater components** that ensure a high degree of operating safety and environmental protection. The ecological **Circumix technology** as a comprehensive solution to ash and waste water management in coal-

fired stations completes our extensive portfolio. The diversity of our designs provides customers with **eco-friendly solutions** and a minimum of operating and maintenance costs. Underlining our responsibility as a reliable partner, we also offer comprehensive **maintenance and spare parts services**, developing and manufacturing all of the main components at our **own production sites**.
